Franklin Miller, Inc. | www.franklinmiller.com | Phone: 973-535-9200

Franklin Miller is a leader in size reduction technology. Since 1918 Franklin Miller has maintained a tradition of quality and customer service. Size Reduction equipment for food processing, pharmaceuticals, chemical, plastics, solid waste and wastewater treatment, recycling, and many other Industrial and Municipal applications. Crushers, Shredders, Grinders and Screens for wet or dry applications.

Torishima Pumps | www.torishimapump.com | Phone: 866-374-1130

Established in 1919 Torishima Pump Company has lead the industry in the manufacture and development of Vertical and Horizontal Pumps for: Boiler Feed and Circulating Water in Power Plants, Desalination for high pressure Seawater and Brine recirculation, Hot well pumps for Geothermal Power, Water Treatment for Industrial and Municipal water and sewage processes, Reverse Osmosis Booster pumps.

Crane Environmental | www.cranenv.com | Phone: 800-633-7435

A World Class Company specializing in Water Purification Systems and Solutions for the Industrial Market. Crane Environmental has provided water and steam systems ranging from basic stand alone reverse osmosis units (RO) to complete pre and post water treatment systems. These systems utilized for boiler feed water applications, deaeration and condensate handling products. Crane Environmental has thousands of customers worldwide in government, power generation, oil, gas, steel, pulp and paper, petrochemical, wastewater treatment, car wash, bottling, beverage, and agricultural markets. Deaerators, Degasifiers, Heat Recovery Equipment, Water Conditioning and Purification Technologies. Membrane based Water Treatment Systems, Reverse Osmosis. Containerized Reverse Osmosis Filtration Systems.

Neotec UV | www.neotecuv.net | Phone: 213-389-3272

Neotec is a leading manufacturer of UV Disinfection for Industrial and Municipal Water and Waste Water. Models include : Low pressure Horizontal Open Channel, Vertical Open Channel, Chamber, In-Line and axial Flow Models. Drinking and Process water, Agriculture, Pool and Spa, Irrigation, Industrial Effluent, Ballast water treatment, Stormwater treatment and Water Reuse.

Hydro Quip Water Treatment Equipment | www.hydroquip.com | Phone: 508-399-5771

Above and Below Ground Oil Water Separators, Inclined Plate Clarifiers, Wash Water Treatment Systems.

WATER & WASTEWATER TREATMENT PRODUCTS

INDUSTRIAL & MUNICIPAL PRODUCTS

ENVIRONMENTAL FILTRATION PRODUCTS

PureAir Filtration | www.pureairfiltration.com | Phone 678-935-1431 or 866-543-7479

PureAir Filtration specializes in custom designed solutions for a wide range of vapor phase air purification and containment control applications. Odor Control for Municipal and Industrial Wastewater Treatment, Gas Scrubbers, Indoor Air quality, Refineries, Pulp and Paper, Chemical Plants, Oil and Gas Plants, Hospitals, Airports, Data Centers, Landfill, Museums and Archives, Commercial Buildings. Meets ANSI/ISA S71.04

Abanaki Oil Skimmers | www.abanaki.com | Phone: 800-358-7546

A wide assortment of skimmers and belt types that efficiently handle hydrocarbons as thick as grease or as light as gasoline. Removal rates from 1-200 GPH. Used for depth ranging from One foot to 100 feet. Tank, floor models. Hazardous duty and food grade options. SS construction available.

Westmor Industries, LLC. | www.westmor.biz | Phone: 800-992-8981

Single, Double Wall tanks for Industrial and Municipal applications in the petroleum and liquid handling industries. AWWA, API and ASME code design and construction of single and double wall tanks. Westmor holds an ASME "U" stamp and NBIC (National Board of Boiler and Pressure Vessel Inspectors) "R" Stamp. Westmor Industries has the latest facilities, equipment, certifications and experienced personnel to provide the highest quality equipment with on-time deliveries at affordable prices. Some of the major markets served are Aviation, Ethanol, Petroleum, Transportation, Agriculture, Military, Industrial, Municipal and Chemical.

Eagle Tanks, Inc. | www.eagletanks.com | Phone: 888-678-0698

Above and Below ground Storage Tanks. Capacities to 25,000 gallons. Reliable storage for handling of hazardous and non-hazardous flammable and combustible fluids including Biodiesel and Ethanol. UL-142 compliant. Double and single wall. Horizontal and Vertical. Skid options with applicable accessories.

Mycelx Technologies Corp. | www.mycelx.com | Phone: 888-306-6843

Contained vessels to remove hydrocarbons ranging from oil to gasoline from water in a single pass. Instantly solubilizes the hydrocarbon compounds and bonds them to its surface, keeping them from separating and emulsifying. Removes sheen, synthetic and synthetic natural oils, BTEX, PCB's. Chlorinated Solvents and organically bound materials.

Filtering to 5microns or less. Effective technology for removal of hydrocarbons, solvents, crude oil, fuel sheen, cycloalkanes, chlorinated organics, pesticides, organic polymers, vegetable oils and animal fats silicone oil and chelated heavy metals.

K-Flow Engineering Co. | www.kffilters.com.tw

Filters, Strainers, Bag filters. Industrial Filters and strainers. Pipeline Strainers, bag Filters, Cartridge filters, Coalescers, Automatic Self Cleaning Filters. Filter presses. Flow Measurement Equipment through 24 in Pipe Size.
